INDEX OF AUTHORS VOLUME 13

A

ABASHER, M. and RYAN, U. S. Comparison of pulmonary endothelial cell and fibroblast proliferation using time-lapse cinematographic analysis 645
AGUAS, A.P.and NICKERSON, P. A. Subcellular distribution of calcium in zona fasciculata cells of the rat adrenal cortex 491
ALBERTINI, D. F. *See* CAMPBELL and ALBERTINI 651
ALDRICH, H. C. and PENDLAND, J. C. Nuclear pores during the cell cycle in a slime mold, *Physarum polycephalum* 431
ALOHAN, F. I. and HUDDART, H. Localization of calcium in an annelid visceral muscle by pyroantimonate deposition and X-ray microprobe analysis 525

B

BAGAVANDOSS, P. and MIDGLEY, A. R. JR. Bleb formation in granulosa cells of rat preovulatory follicles *in vivo* and *in vitro* 669
BAKER, J. *See* SMITH, WAINWRIGHT, BAKER and CAYER 299
BALDWIN, K. M. and HAKIM, R. S. Freeze-fracture analysis of gap and septate junctions in embryos of a moth 691
BARTH, F. G. *See* OESTERLE and BARTH 9
BASKIN, F. J. *See* CROWE and BASKIN 153
BINNINGTON, K. Ultrastructural evidence for the endocrine nature of the lateral organs of the cattle tick *Boophilus microplus* 475
BOSSEN, E. H., SOMMER, J. R. and WAUGH, R. A. Comparative stereology of mouse atria 71
BOWERMAN, R. F. *See* LANE, HARRISON and BOWERMAN 557
BRANDON, R. A. *See* Russell, BRANDON, ZALISKO and MARTAN 609
BSATA, N. *See* MARSDEN, BSATA and CAIN 255
BÜSCHER, G. *See* FAWCETT, DOXSEY and BÜSCHER 209, 231
BUTLER, R. D. *See* HACKNEY and BUTLER 453

C

CAGAN, R. H. *See* RHEIN, CAGAN, ORKAND and DOLACK 577
CAIN, H. *See* MARSDEN, BSATA and CAIN 255
—. *See* MARSDEN, COLEMAN, RICHARD, JOST and CAIN 269
CAMPBELL, K. L. and ALBERTINI, D. F. Freeze-fracture analysis of gap junction disruption in rat ovarian granulosa cells 651
CASTANET, J. *See* SCHÖNBÖRNER, MEUNIER and CASTANET 589
CAYER, M. L. *See* HAYASHI, HINSSEN, CAYER and SMITH 35
—. *See* SMITH, WAINWRIGHT, BAKER and CAYER 299
CHANG, J. P. *See* MOLLER, CHANG and PARTRIDGE 731
CHENG, M. *See* NAG and CHENG 515
COLEMAN, C. *See* MARSDEN, COLEMAN, RICHARD, JOST and CAIN 269
COPELAND, D. E. *See* HARDING, COPELAND, SUSAN and LO 501
CRISP, D. J. *See* RICHARDSON, RUNHAM and CRISP 715
CROWE, L. M. and BASKIN, F. J. Activation of the contractile system in crustacean muscle: ultrastructural evidence for the role of the T system 153

D

DAVIS, W. L. and JONES, R. G. Calcium lysosomes in rachitic and vitamin D_3 replete chick duodenal absorptive cells 381
—. *See* JONES and DAVIS 739
DEGENNARO, P. *See* LEVIN, DEGENNARO, ROSS, SERAFIN and STEWART 61
DENT, J. N. *See* FORBES, DENT, ZACCARIA and SINGHAS 403
DENTLER, W. L. Microtubule-membrane interactions in ctenophore swimming plate cilia 197
DOLACK, M. K. *See* RHEIN, CAGAN, ORKAND and DOLACK 577
DORN, A. and HOFFMAN, P. The 'embryonic moults' of the milkweed bug as seen by the S.E.M. 461
DOUGHTIE, D. G. and RAO, K. R. The syncytial nature and phagocytic activity of the branchial podocytes in the grass shrimp, *Palaemonetes pugio* 93
DOXSEY, S. *See* FAWCETT, DOXSEY and BÜSCHER 209, 231

F

FAWCETT, D. W., DOXSEY, S. and BÜSCHER, G. Salivary gland of the tick vector (*R. appendiculatus*) of East Coast fever. 1. Ultrastructure of the type 111 acinus 209
—, —, —. Salivary gland of the tick vector (*R. appendiculatus*) of East Coast fever. 11. Cellular basis for fluid secretion in the type 111 acinus 231
FITZGERALD, M. E. *See* REGER and FITZGERALD 535

FLÉCHON, J.-E. and HUNTER, R. H. F. Distribution of spermatozoa in the uterotubal junction and isthmus of pigs, and their relationship with the luminal epithelium after mating: a scanning electron microscope study 127
FORBES, M. S., DENT, J. N., ZACCARIA, R. A. and SINGHAS, C. A. Hyperpigmented patches in the skin of the newt *Notophthalmus viridescens* 403

G

GREEN, C. R. A clarification of the two types of invertebrate pleated septate junction 173
—. A variation of the smooth septate junction in sea spiders (Pycnogonida) 189
GRIERSON, J. P. and NEVILLE, A. C. Helicoidal architecture of fish egg shells 819
GUPTA, B. L. and HALL, T. A. The X-ray microanalysis of frozen-hydrated sections in scanning electron microscopy: an evaluation 623

H

HACKNEY, C. M. and BUTLER, R. D. Distribution of calcium in the suctorian *Discophrya collini*: an X-ray microanalytical study 453
HADLEY, N. F. Fine structure of the cuticle of the black widow spider with reference to surface lipids 805
HAKIM, R. S. *See* BALDWIN and HAKIM 691
HALL, T. A. *See* GUPTA and HALL 623
HARDING, C. V., COPELAND, D. E., SUSAN, S. R. and LO, W.-K. A newly described organ associated with the eye and lateral line system in the marine teleost, *Stenotomus chrysops* 501
HARRISON, J. B. *See* LANE, HARRISON and BOWERMAN 557
HAYASHI, T., HINSSEN, H., CAYER, M. L. and SMITH, D. S. Organization of native *in vitro* reassembled myosin filaments from lobster tonic muscle 35
HINSSEN, H. *See* HAYASHI, HINSSEN, CAYER and SMITH 35
HOFFMANN, P. *See* DORN and HOFFMANN 461
HUDDART, H. *See* ALOHAN and HUDDART 525
HUEBNER, E. Nurse cell-oocyte interaction in the telotrophic ovarioles of an insect, *Rhodnius prolixus* 105
—. *See* LUTZ and HUEBNER 321
HUIE, P. *See* LOCKE and HUIE 787
HUNT, S. Molluscan visceral muscle fine structure. General structure and sarcolemmal organization in the smooth muscle of the intestinal wall *Buccinum undatum* 283
HUNTER, R. H. F. *See* FLÉCHON and HUNTER 127

J

JONES, R. G. and DAVIS, W. L. Ultrastructural changes in the lysosomes of rachitic intestinal absorptive cells 739
—. *See* DAVIS and JONES 381
JOST, J. *See* MARSDEN, COLEMAN, RICHARD, JOST and CAIN 269

K

KARPAS, S. L. *See* RUSSELL, MALONE and KARPAS 369
KEARNS, L. P. *See* SIGEE and KEARNS 441
KOMURO, T. Fine structural study of the abdominal muscle receptor organs of the cray fish (Procambarus clarkii). Fast and slow receptor muscles 79

L

LANE, N. J., HARRISON, J. B. and BOWERMAN, R. F. A vertebrate-like blood-brain barrier, with intraganglionic blood channels and occluding junctions, in the scorpion 557
LARSEN, W. J. *See* RISINGER and LARSEN 413
LEVIN, M. A., DEGENNARO, P., ROSS, A., SERAFIN, N. and STEWART, J. A. A histochemical and electron microscopic study of a fast- and a slow-twitch miscle in genetically spastic mice 61
LO, W.-K. *See* HARDING, COPELAND, SUSAN and LO 501
LOCKE, M. and HUIE, P. Epidermal feet in pupal segment morphogenesis 787
LUTZ, D. A. and HUEBNER, E. Development of nurse cell-oocyte interactions in the insect telotrophic ovary (*Rhodnius prolixus*) 321

M

MACCURDY, D. S. *See* RUSSELL, MALONE and MACCURDY 349

INDEX OF SUBJECTS VOLUME 13

A

Absorptive cells, intestinal, rachitic, ultrastructural changes in lysosomes of, 739
Acinus, type 111, of tick vector of East Coast fever, 209, 231
Adenocarcinoma, human, cultured, endocytosis of cell-cell junctions and spontaneous disaggregation in, 413
Adrenal cortex, rat, distribution of calcium in, 491
Amblystoma texanum, salamander, spermatophores of 609
Amia calva, fish, 'twisted plywood' structure of scales of, 165
Amines, biogenic, uptake of tritium labelled, by prostomium of polychaete, 269
Amphibian, newt, *Notophthalmus viridescens*, skin pigment of, 403
—, salamander *Amblystoma texanum*, spermatophores of, 609
Annelid, earthworm, dorsal giant fibre septum of, 9
—, *Nereis virens*, cerebral cholinergic system in, 255
—,— —, uptake of biogenic amines in, 269
—, visceral muscle, calcium localization in, 525
Arachnid, black widow spider, fine structure of cuticle of, with reference to surface lipids, 787
—, cattle tick, *Boophilus microplus*, evidence for endocrine nature of lateral organs of, 475
—, pycnogonid sea spider, septate junctions in, 189
—, tick *R. appendiculatus*, salivary glands of, 209, 231
Arenivaga investigata, desert burrowing cockroach, structures involved in water vapour absorption, 541
Atria, mouse, comparative stereology of, 71
Autophagy, increased, in chloroquine-treated muscle, 393

B

Blood-brain barrier, bertebrate-like, in the scorpion, 557
Boophilus microplus, cattle tick, lateral organs of, 475
Buccinum undatum, mollusc, structure of visceral muscle of, 283
Byssus, of a mollusc, secretion of, 701

C

Calcification, of Mandl's corpuscles, in teleost scales 589
Calcium, distribution of in a suctorian, X-ray by microanalysis 453
—, localization of in annelid visceral muscle, by pyroantimonate and X-ray microanalysis, 525
—, subcellular distribution of in zona fasciculata of rat adrenal cortes, 491
—, homeostasis, in chick duodenal absorptive cells, 381
—, lysosomes, in rachitic and vitamin D_3 replete chick, 381
Capillary endothelium, cardiac, of pike, 747
Cardiac muscle, adult, mammalian in culture, 515
'Catch' mechanism, of sea-urchin spine, structural features associated with, 299
Cationized ferritin receptors, on ciliated epithelial cells of rat trachea, 731
Cell cycle, of slime mold, nuclear pores during, 431
Cell surfaces, of *Paramecium*, stained with ruthenium red, 1
Chick, duodenal absorptive cells, calcium lysosomes in, 381
—, tonic and phasic muscle of, chloroquine-treated, 393
Chloroquine, effect of on autophagy in muscle, 393
Cholinergic system, cerebral, evidence for in prostomium of a polyhaete, 255
Chromatophore, of hyperpigmented newt skin, 403
Chromosome-bound metals, levels of, in dinoflagellate in conditions of low external ion availability, 441
Cilia, ctenophore swimming plate, 197
Circulatory system, bovine artery endothelial cells, in culture, cinematographic analysis, 645
— —, ultrastructure of atrial and ventricular endocardium and cardiac capillary endothelium of pike, 747
Colchicine, effect of on seminiferous tubule of rat, 349
Collagen, fibrils, aligned with myoblasts in regenerating frog tadpole tails, 773
—, of connective tissue of skeletal muscle, 681
Connective tissue, myoblasts aligned with collagen fibrils in regenerating frog tadpole tails, 773
——, perimysial and endomysial, of skeletal muscle, 681
Crustacean, *Homarus americanus*, role of T-system in muscle of 153
—,——, myosin filaments of 35
—, *Palaemonetes putio*, grass shrimp, podocytes of, 93
—, *Procambarus clarkii*, muscle receptor organs of, 79
Ctenophore, swimming plate cilia, 197
Cuticle, 'embryonic moults' of milkweed bug, SEM of, 461

—, morphogenesis of during continous growth in the final instar of a moth, 757
—, morphology and design of extensible intersegmental membrane of female migratory locust, 831
—, of black widow spider, fine structure of with reference to surface lipids, 805

D

Digestive system, of mollusc, visceral muscle of intestinal wall of, 283
——, salivary gland of tick, 209, 231
Dinoflagellate, levels of chromosome-bound metals in, 441
Discophrya collini, suctorian, distribution of calcium in, 453

E

East Coast fever, tick vector of, structure of type 111 acinus of salivary glands of, 209, 231
Echinoderm, sea-urchin, spine movement and 'catch', 299
Egg shells, fish, helicoidal architecture in, 819
Eisenia foetida, dorsal giant fibre septum of, 9
Embryos, of a moth, gap and septate junctions in, 691
Endocrine system, lateral organs of cattle tick, 475
——, rat adrenal cortex, distribution of calcium in, 491
Endocytosis, of cell-cell junctions and spontaneous cell disaggregation in cultured human ovarian adenocarcinoma, 413
Endomysial connective tissue, in skeletal muscle, 681
Endoplasmic reticulum, and plasma membrane, associations between in rat Sertoli cells, 337
Endothelial cell, and fibroblast, comparison of, using time-lapse cinematographic analysis, 645
Endothelium, cardiac capillary, of the pike, 747
'Enzyme gland', of a mollusc, ultrastructural and cytochemical study of foot of, 701
Epidermal feet, in pupal segment morphogenesis, 773
Epithelium luminal, relationship with spermatozoa, 127
Excretory system, branchial podocytes of shrimp, 93
Eye, of marine teleost, newly described organ associated with, 501

F

Ferritin receptors, cationized, distribution of on ciliated epithelial cells of rat trachea, 731
Fibroblast, and endothelial cell, comparison of using time-lapse inematographic analysis, 645
Filaments, myosin, of lobster muscle, native and reassembled, 35
Fish, *Amia calva*, structure of scales of, 165
—, egg shells, helicoidal architecture of 819
—, pike, atrial and ventricular endocardium and cardiac capillary endothelium of, 747
Follicles, preovulatory, bleb formation in, 669
Freeze-fracture, analysis of gap and septate junctions in embryos of a moth, 691
—, analysis of gap junction disruption in rat ovarian granulosa cells, 651
—, of cell junctions in cultured adenocarcinoma, 413
—, of extensible intersegmental membrane of locust, 831
—, of gastropod tentacular muscle, 535
—, of invertebrate pleated septate junction, 173
—, of lobster muscle 153
—, of nuclear pores during cell cycle in a slime mold *Physarum*, 431
—, of scorpion central ganglion, 557
—, variation of the smooth septate junction, 189
Frog, tadpole, regeneration of rail of, 773
Frontal bodies, novel structures involved in water vapour absorption by the desert burrowing cockroach, 541
Frozen-hydrated sections, X-ray microanalysis of, 623

G

Ganglion, central, of scorpion, occluding junctions in, 557
Gap junctions, disruption of, in rat granulosa cells, 651
——, in dorsal giant fibre septum of earthworm, 9
——, in embryos of a moth, 691
Giant fibre, septum, of earthworm, 9
Gill, branchial podocytes of shrimp, 93
Glands, salivary, innervation of, in insect, 141
Granulosa cells, of rat preovulatory follicles, bleb formation in, *in vivo* and *in vitro*, 669
——, rat ovarian, disruption of gap junctions in, 651
Growth, continuous, of final instar of a moth, cuticular morphogenesis during, 757

H

Helicoidal architecture, of fish egg shells, 819
Helicoidal model, of structure of scales of a fish, 165
Homarus americanus, tonic muscle of, 35
——, T-system of muscle of, 153
Hormonal stimulation, of spermatogenesis, agents affecting, 369

I

Insect, *Arenivaga investigata*, desert cockroach, water absorption by frontal bodies of, 541
—, epidermal feet in pupal segment morphogenesis, 781
—, female migratory locust, structure of extensible intersegmental membrane of, 831
—, firefly, localization of luciferase in photocytes of, 599
—, milkweed bug, 'embryonic moults' of, SEM, 461
—, moth, cuticular morphogenesis during continuous growth of final instar of, 757
—,—, freeze fracture analysis of gap and septate junctions in embryos of, 691
—, *Nauphoeta cinerea*, salivary nerves of, 141
—, *Rhodnius prolixus*, ovarioles of, 105
—,——, telotrophic ovary of, 321
Intersegmental membrane, extensible, of female migratory locust, 831

J

Junctions, *see under* Freeze-fracture.

L

Lateral line, of teleost, newly described organ associated with, 501
Lateral organs, of tick, evidence for endocrine nature, 475
Limax, gastropod, membrane specializations in tentacular muscle of, 535
Lipid, distribution of, improved EM method, 19
—, surface, in spider cuticle, 805
Luciferase, immunochemical localization of, in photocytes of fireflies, 599
Luciferin, firefly, 599
Lumbricus terrestris, dorsal giant fibre septum of, 9
Luminescence, of fireflies, localization of luciferase in photocytes of, 599
Lysosomes, calcium, in rachitic and vitamin D_3 replete chick duodenal absorptive cells, 381
—, of rachitic intestinal absorptive cells, ultrastructural changes in, 739

M

Mandl's corpuscles, calcified, in teleost fish scales, 589
——, of primitive living fish *Amia calva*, 165
Mantle, of mollusc, histological and ultrastructural study of, 715
Membrane,-microtubule interactions, in ctenophore cilia, 197
Metals, chromosome-bound, in dinoflagellate in conditions of low external ion availability, 441
Method, improved, for distribution of lipid for the EM, 19
Mice, genetically spastic, fast- and slow-twitch muscle in, histochemical and EM study, 61
Microtubule, -disrupting agents, colchicine and vinblastine, effect of on seminiferous tubules of rat, 349
Microtubule-membrane interactions, in ctenophore swimming plate cilia, 197
Mineralization, and 'twisted plywood' structure in scales of a primitive fish, 165
Mollusc, *Buccinum undatum*, visceral muscle of, 283
—, gastropod, *Limax*, membrane specializations in tentacular retractor muscle of, 535
—, mantle edge of, histological and ultrastructural study of, 715
—, ultrastructural and cytochemical study on the 'enzyme gland' of, 701
Morphogenesis, pupal segment, epidermal feet in, 781
Moults, embryonic, of milkweed bug, 461
Mouse, atria, comparative stereology of, 71
Muscle, cardiac, adult cells in culture, 515
—,—, comparative stereology of mouse atria 71
—, fast- and slow-twitch, in genetically spastic mice, 61
—, myoblasts are aligned with collagen fibrils in regenerating frog tadpole tails, 773
—, myofiber damage in parasitism by *Sarcocystis*, 45
—, organization of native and *in vitro*-reassembled myosin filaments from lobster tonic muscle, 35
—, paramyosin, of sea-urchin spine, 299
—, receptor, fast and slow, of crayfish, 79
—, skeletal, morphology of perimysial and endomysial connective tissue in, 681
—, tentacular, of gastropod, membrane specializations in, 535
—, tonic and phasic, chloroquine-treated, autophagy in, 393
—, tonic, of lobster, myofilaments of, 35
—, T-system, role of in activation of contractile system, in crustacean muscle, 153
—, visceral, localization of calcium in, by pyroantimonate deposition and X-ray microanalysis, 525
—,—, molluscan, in intestinal wall of mollusc, 283
Myoblasts, aligned with collagen fibrils in regenerating frog tadpole tails, 773
Myocardium, mouse, stereology of, 71
Myosin filaments, of lobster tonic muscle, native and reassembled 35

N

Nauphoeta cinerea, cockroach, salivary nerves of, 141
Nereis virens, polychaete, cerebral cholinergic system in, 255
——,—, uptake of biogenic amines by prostomium of, 269
Nervous system, a vertebrate-like blood-brain barrier, with intraganglionic blood channels and occluding junctions, in the scorpion. 557
——, evidence for a cerebral cholinergic system and suggested pharmacological patterns of neural organization in the prostomium of the polychaete *Nereis*, 255
——, axons, changes in, resulting from stimulation of salivary nerves of cockroach, 141
——, dorsal giant fibre septum of earthworm, 9
——, sensory, olfactory epithelium of teleost, 577
——, sensory neurones, associated with muscle receptor organs of crayfish, 79
Neural organization, pharmacological patterns of, in *Nereis* 255
Notophthalmus viridescens, newt, hyperpigmented patches in skin of, 403
Nuclear pores, during cell cycle in a slime mold, 431
Nurse cell, -oocyte interaction in telotrophic ovarioles of an insect, *Rhodnius*, 105
——,——s, in telotrophic ovary, 321

O

Olfactory epithelium, of trout, surface specializations of, 577
Oocyte, nurse cell- interactions in an insect *Rhodnius*, 105
—, -nurse cell interactions, in telotrophic ovary, 321
Ovariole, telotrophic, of an insect *Rhodnius*, 105
Ovary, telotrophic, of an insect, nurse cell-oocyte interactions in, 321

P

Palaemonetes pugio, shrimp, branchial podocytes of, 93
Paramecium caudatum, cell surfaces of, 1

Parasitism, by *Sarcocystis*, 45
Perimysial connective tissue, in skeletal muscle, 681
Photocytes, of fireflies, localization of luciferase in, 599
Physarum polycephalum, slime mold, nuclear pores during cell cycle in, 431
Pig, reproductive system, SEM of spermatozoa in, 127
Pigment granules, in skin of newt, 403
Pike, atrial and ventricular endocardium, ultrastructure of, 747
Plasma membrane, and subsurface cisternae, associations between in rat Sertoli cells, 337
Podocytes, branchial, of shrimp, syncytial nature and phagocytic activity of, 93
Procambarus clarkii, crayfish, muscle receptor organs of, 79
Prostomium, of polychaete, cholinergic system in, 255
—,——, uptake of biogenic amines by prostomium of, 269
Protozoan, *Discophrya collini*, distribution of calcium in, 453
—, *Paramecium caudatum*, cell surfaces of, 1
—, *Sarcocystis muris*, parasitism by, 45
Pupal segment morphogenesis, epidermal feet in, 781
Pyroantimonate deposition, localization of calcium by, in annelid visceral muscle, 525

R

Rat, adrenal cortex, zona fasciculata of, 491
—, agents affecting spermatogenesis in, 369
—, ovarian granulosa cells, freeze-fracture analysis of, 651
—, preovulatory follickes, bleb formation in, 669
—, seminiferous tubule, effect of microtubule-disrupting agents on, 349
—, Sertoli cells of, 337
—, trachea, ciliated epithelial cells of, 731
Receptors, cationized ferritin, distribution of in rat trachea, 731
Regeneration, of frog tadpole tails, alignment of myoblasts and collagen fibrils during, 773
Reproductive system, association between subsurface cisternae and plasma membrane of rat Sertoli cells, 337
——, bleb formation in granulosa cells of rat preovulatory follicles *in vivo* and *in vitro*, 669
——, cultured human ovarian adenocarcinoma, 413
——, development of nurse cell-oocyte interactions in insect telotrophic ovary, 321
——, effect of colchicine and vinblastine on seminiferous tubule structure in rat, 369
——, freeze-fracture analysis of gap junction disruption in rat ovarian granulosa cells, 651
Septate junction, pleated, invertebrate, two types of, 173
——, smooth, variation of in a sea spider (Pycnogonida), 189
——s, in embryos of a moth, 691
Sertoli cells, of rat, membrane associations in, 337
Skin, hyperpigmented, of newt, 403
Slime mold, *Physarum*, nuclear pores during cell cycle of, 431
Spermatogenesis, agents affecting, by disruption of hormonal stimulation, 391
Spermatophores, of salamander *Amblystoma*, 609
Spermatozoa, distribution of in utero-tubal junction and isthmus of pigs, 127
Stenotomus chrysops, teleost, organ associated with eye and lateral line of, 501
Stereology, of mouse atria, 71
Subsurface cisternae, and plasma membrane, association between, in rat Sertoli cells 337
Syncytium, branchial podocyte, of shrimp, 93

T

Teleost, marine, *Stenotomus chrysops*, newly described organ associated with eye and lateral line of, 501
—, rainbow trout, surface specializations of the olfactory epithelium in, 577
—, scales of, structure of calcified Mandl's corpuscles in, 589
Tight junctions, in a vertebrate-like blood-brain barrier in a scorpion, 557
Time-lapse cinematographic analysis, of pulmonary endothelial cell and fibroblast proliferation, 645
Tissue culture, comparison of pulmonary endothelial cell and fibroblast proliferation using cinematographic analysis, 645
——, of adult mammalian cardiac muscle cells, 515
Trachea, of rat, ciliated epithelial cells of, distribution of cationized ferritin receptors on, 731
Tritium-labelled biogenic amines, uptake of in prostomium of a polychaete, 269
T-system, of crustacean muscle, role of, 153

V

Vinblastine, effect of on seminiferous tubule of rat, 349
Vitamin D_2, -replete chick duodenal cells, calcium lysosomes in, 381

W

Water vapour absorption, by desert burrowing cockroach, novel structures involved in, 541

X

X-ray microanalysis, of calcium, in an annelid visceral muscle, 525
——,——, in a suctorian *Discophrya*, 453
——, of chromosome-bound metals in dinoflagellate, 441
——, of frozen-hydrated sections in SEM. 623

Z

Zona fasciculata, of rat adrenal cortex, calcium in, 491
